

LIQUID PRODUCTS

Northern Salt
INCORPORATED

Innovative Liquids for Snow & Ice Management

Northern Salt is more than just a salt supplier. Our innovative anti-icing and de-icing products provide our customers with solutions no matter what extremes winter throws our way. Our liquid products reduce application rates and greatly enhance the performance of granular de-icers, all while reducing the environmental impact of chlorides.

PRELUDE

Performance enhanced salt brine

USED FOR

Anti-icing pretreat or pre-wet

- No messy white residue
- No tracking
- Reduces costs
- Enhances performance of granular de-icer
- Lowers chloride impact on environment
- Reduces need for granular deicer by 40%

IGNITE

Advanced blended & corrosion inhibiting liquid

USED FOR

Pretreat, pre-wet, or stockpile treatment

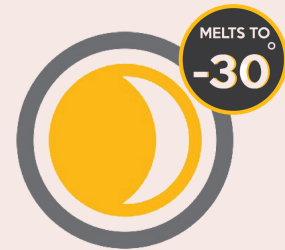

- Reduces amount of chlorides applied by up to 40%
- Superior melting capability
- Helps prevent bond between snow & pavement
- Proprietary blend of liquid deicer
- Significantly improves working temperature of salt

ECLIPSE

High performance calcium & corrosion inhibiting liquid

USED FOR

Pre-wet or stockpile treatment

- 32% liquid calcium chloride
- Enhances effectiveness of salting
- Melts ice 2x as fast with long lasting results
- 10x less harmful to vegetation
